

Terms of Sale - Services

Processing costs include the TGAP tax (General Tax on Polluting Activities).

The latter is reassessed every year on 1 January.

Costs are valid within the limits of the current legislation and taxes. They are open to change, should new taxes be introduced or current taxes changed.

Applicable VAT rate: 20%.

Validity of the proposal:

This proposal is drawn up for the duration of the project, starting from its acceptance.

Invoicing:

The weights invoiced shall be the gross weights received and recorded by our weighing systems. Because the exact type of mixture is not known, the prices shown are a rough guide only, based on the information you have provided and subject to acceptance after analysis by the processing centre. Should any changes be made, the value of the service will be adjusted. Minimum invoice value: €150 (excl. tax). The minimum invoice value does not apply to equipment hire, only to transport and processing services.

Collection procedure:

On receipt of this signed proposal, EPUR MEDITERRANEE will arrange for the containers to be made available. The collection shall be made within 24 to 48 hours.

EPUR MEDITERRANEE shall arrange and make collection of the containers. All service requests should be sent to planning@epur.fr or by phone on 04 13 35 00 19.

We will not carry out any handling other than that initially stipulated in this proposal. A surcharge will be invoiced for any manual collection or collection taking over half an hour. The customer shall obtain the necessary parking permits and install markers, both during the day or at night.

EPUR MEDITERRANEE reserves the faculty to have all or part of the service performed by a subcontractor of its choice, under its responsibility.

The area set aside for waste collection should be kept clear by the Customer so that collections may be carried out without impediment.

With effect from the provision of the equipment and for as long as the equipment remains in its custody, the Customer is responsible for any harm or damage caused by the equipment to people or property, and any risk of damage, theft or partial or total destruction of the equipment, even if caused by a fortuitous event or force majeure. The Service Provider may invoice all costs incurred to repair or replace the equipment. Only the Service Provider and its agents, if any, are accredited to carry out transport or collect materials.

With regard to the containers in particular, the Customer should be careful to check that the load does not protrude at the top and that the load's maximum weight does not exceed the maximum weight authorised by the road regulations. Should these conditions not be met, the driver may refuse to collect the equipment that is too bulky or too heavy.

The Service Provider is discharged from any obligation to collect, valorise or process equipment should force majeure or a fortuitous event disrupt all or part of its operations.

If the containers belong to the customer, they must comply with the legislation on hazardous waste transport.

Cancellation/Unladen journey

In the event of a late cancellation (after 5pm for an operation scheduled for the next day), cancellation fees shall be invoiced to the value of 50% of the cost of the service. Any unladen journey for which the customer is responsible shall be invoiced.

Retail purchase

A photocopy of your ID card must be attached to the signed quote or brought with you when you deliver to our EPUR MEDITERRANEE site. No payment can be made without this document.

Traceability:

Under Article R541-45 of the French Environment Code, every time hazardous waste is collected, the producer should complete a Waste Tracking Form (BSD) on a CERFA form no. 12571 and/or an Asbestos Waste Tracking Form (BSDA) on a CERFA form no. 11861.

Waste Tracking Forms are mandatory and must be kept for at least five years. EPUR MEDITERRANEE will issue this official, regulation document for you and invoice **€5 (excl. tax) per piece** for this service.

Non-conformities:

For technical and safety reasons, EPUR MEDITERRANEE or the accredited processing centre reserve the right to reject a product that does not meet the standards laid down by the collection site.

In this case, the product will either be returned to you or forwarded to a processing centre capable of accepting an immediate delivery. **EPUR MEDITERRANEE** undertakes to inform the site manager of the non-conformity beforehand, using a non-conformity sheet, and indicate the reason for its rejection.

The additional costs arising from this non-conformity shall remain your responsibility.
